Part 2 of the FSG details the current list of fees or charges that you will pay for using our services.

Unless otherwise indicated, prices shown in this FSG include applicable GST.

In the case of charges incurred from the ASX Derivative Clearing System these have been set out on a GST exclusive basis as the total GST may be rounded in accordance with the GST law.

HOW ARE WE REMUNERATED FOR THE SERVICES WE PROVIDE?

CommSec is remunerated directly through the fees we charge you. With certain products, we are also remunerated by product providers, including those within the Commonwealth Bank Group, through commissions.

INITIAL COMMISSIONS PAID TO COMMSEC

Initial commissions are a one off payment and are calculated as a percentage of the funds you have invested. They are deducted from the amount invested. Commissions are calculated as follows:

- Investment products – between 0% and 6.5% (GST inclusive) of your investment amount.
- Insurance products – between 0% and 30% (GST inclusive) of the premium that you pay

ONGOING COMMISSIONS PAID TO COMMSEC

Ongoing commissions (sometimes referred to as trailing commissions) are paid for the length of time you hold the product. They are usually paid directly to CommSec by the product provider out of the revenue the product provider earns. In some cases, they may be deducted from your investment.

They are calculated as follows:

- Investment products – between 0% and 1.4% (GST inclusive) of the investment amount.

Example

Assume that you invested \$10,000 in an investment product and maintained that investment. If CommSec charged an initial commission of 2% and received an ongoing commission of 0.5% from the product provider, then:

- CommSec would receive \$200 as an initial commission; and
- CommSec would receive \$50 per annum as an ongoing commission.

In these cases, we will disclose any such remuneration arrangements when we provide you with any personal advice or make a recommendation to invest, or otherwise when we arrange any investment for you.

Finance Brokers

CommSec pays a referral fee to finance brokers where those brokers refer persons to CommSec in respect of the Commonwealth Bank Protected Portfolio Loan product. The referral fees are:

Initial Facility	Referral Fee
\$50,000-\$499,000	\$150
\$500,000 plus	\$250

Note: The fee will be calculated on the initial facility limit (not drawings) and includes GST.

Referrals to Commonwealth Financial Planning Limited, CommInsure and Commonwealth Private

Should you take up a product as part of a referral to Commonwealth Financial Planning Limited, CommInsure or Commonwealth Private, then CommSec will receive a commission of up to 100% of revenue generated by any fees or premiums you pay to them.

Should you take up a product as part of a referral to CommSec from Commonwealth Financial Planning Limited, CommInsure or Commonwealth Private, then CommSec will pay them a commission of up to 100% of any revenue generated by fees or premiums you pay to CommSec.

Specialist Service Providers

CommSec may receive referrals from other 3rd party referrals. CommSec will pay a commission of up to 50% of any revenue generated by such referrals.

HOW ARE OUR REPRESENTATIVES REMUNERATED?

Our representatives are remunerated by salary from CommSec or the Commonwealth Bank and do not directly receive any commissions or fees. They may be eligible for a bonus payment. Some representatives' bonus payments may be up to 45% of fees and commissions that CommSec receives from the placement of a financial product.

These bonus payments are discretionary, and based on achievement of pre-determined business objectives.

These may include:

- Business Outcomes
- Customer Service
- People Engagement
- Special Tasks
- People Principles

Our representatives may also be eligible to:

- Share in incentives (both monetary and non-monetary) rewarded for outstanding service;
- Receive a free grant of Commonwealth Bankshares under the Commonwealth Bank's Employee Share Acquisition Plan (ESAP);
- Participate in the Commonwealth Bank's long term incentive program. This incentive is in the form of Commonwealth Bank shares that only vest at a prescribed point in the future where the Commonwealth Bank attains certain share performance hurdles. It is entirely discretionary and is based on a representative's contribution to the business over time; and
- Receive indirect benefits stemming from advice provided to you. Indirect benefits include such things as business lunches, tickets to sporting and cultural events (including overseas study tours), corporate promotional merchandise and other minor benefits unquantifiable at this stage from product providers whose products they recommend.

ASSOCIATIONS WITH RELATED PRODUCT ISSUERS

CommSec may refer you to or provide you with financial services and products from both related and non-related product providers.

As a member of the Commonwealth Bank Group, we deal in and advise on products provided from related Group companies or we may refer you to these Group companies, which include Commonwealth Bank, Colonial First State Investments Limited, Commonwealth Insurance Limited, The Colonial Mutual Life Assurance Society Limited, Commonwealth Managed Investments Limited, Colonial Mutual Superannuation Pty Limited. CommSec may receive a commission payment from the above companies as a result of you investing in one of their products or services.

Margin Lending Remuneration

CommSec Margin Lending Facilities are provided by Commonwealth Bank of Australia (Bank) and administered by CommSec. If you take out a CommSec Margin Loan, the Bank (or its nominated related entity) will receive the interest payable on the outstanding balance of your margin lending facility. For example, if the outstanding balance on your margin lending facility is \$100,000 and the current variable interest rate is 9.25% p.a., you will pay \$9,250 per year, or \$770.83 per month in interest to the Bank. Please refer to the CommSec

website at www.comsec.com.au or call **13 17 09** to enquire about the current prevailing available interest rates and options. There are no application fees, establishment fees or account keeping fees unless you are applying as a company or trustee. A default (higher) interest rate may apply if you do not pay on time.

In consideration for its services in administering CommSec Margin Lending Facilities, the Bank pays a management fee to CommSec on a cost-recovery and compensation basis being 150 % of actual costs incurred by CommSec.

These remuneration arrangements apply where personal advice is not given by CommSec.

Share Direct is not separately remunerated for custodial services of the kind described in this FSG. Share Direct will have a right to be reimbursed for costs it incurs in selling any securities or financial products held in custody if such sale is permitted under the terms of the relevant product (such costs would primarily be comprised of brokerage charged by third parties, which could include CommSec). It is also entitled to an indemnity from Commonwealth Bank for various costs and liabilities reasonably and properly incurred in providing these services.

Other fees that are paid to CommSec or Commonwealth Bank will be included in the PDS or other disclosure document.

CommSec is remunerated directly through the fees that CommSec charges you. With certain products, CommSec is also remunerated by product providers, including those within the Commonwealth Bank Group, through commissions. Details of commissions payable to CommSec under products it arranges are also described in this FSG.

INITIAL COMMISSIONS PAID TO COMMSEC

Initial commissions are a one off payment and are calculated as a percentage of the funds you have invested. They are deducted from the amount invested. Commissions are calculated as follows:

- Investment products – between 0% and 6.5% (GST inclusive) of your investment amount.

ONGOING COMMISSIONS PAID TO COMMSEC

Ongoing commissions (sometimes referred to as trailing commissions) are paid for the length of time you hold the product. They are usually paid directly to CommSec by the product provider out of the revenue the product provider earns. In some cases, they may be deducted from your investments. They are calculated as follows:

- Investment products – between 0% and 1.4% (GST inclusive) of the investment amount.

Example

Assume that you invested \$10,000 in an investment product and maintained that investment. If CommSec charged an initial commission of 2% and received an ongoing commission of 0.5% from the product provider, then:

- CommSec would receive \$200 as an initial commission; and
- CommSec would receive \$50 per annum as ongoing commission.

In these cases, CommSec will disclose any such remuneration arrangements when CommSec provides you with any personal advice or make a recommendation to invest, or otherwise when CommSec arranges any investment for you.
